

## COVID TRAVEL REQUIREMENTS (subject to change)

### Vaccinated passengers:

- Every passenger that is fully-vaccinated is required by The Bahamas government, to obtain a negative Rapid Antigen Test or negative RT-PCR Test **no more than 3 days prior** to the embarkation date.
- Passengers will be required to bring Covid test result, proof of vaccinations (original card) and the approved Travel Health Visa, on travel day. **This is a mandatory request by The Bahamas government. The embarkation may be denied due to failure of facilitating the proper travel documents.**

### Unvaccinated passengers:

- Every unvaccinated passenger 12 and older needs to have a negative COVID-19 RT-PCR test taken **no more than 3 days prior** to the embarkation date.
- Passengers will be required to bring the negative COVID test result and approved Travel Health Visa on travel day. **This is a mandatory request by The Bahamas government. The embarkation may be denied due to failure of facilitating the proper travel documents.**

### Children and Infants:

- Children between the ages of 2 and 11 are required to obtain a negative Rapid Antigen Test or negative RT-PCR Test **no more than 3 days prior** to the embarkation date.
- Children under the age of 2 are exempt from testing requirements.
- All travelers, including infants and children (no matter the age), will need to apply for a Bahamas Health Travel Visa at [travel.gov.bs](https://travel.gov.bs) (Does not apply to Bahamian citizens or residents).

**\*Currently, no Covid test or vaccination is required to enter Florida when traveling by ferry.**
