

Health Pass Q&A

DLP.com Q&A (as of Aug. 9)

What are the requirements to enter France? Do I need a Health Pass to get into France?

As the situation is constantly evolving and varies depending on your country of origin, we invite you to consult the European Union [website](#) to have the latest information on the conditions to enter France. Regardless of conditions to enter the French territory, specific conditions apply to access Disneyland Paris.

[UPDATED] What is the Health Pass that will be required to visit Disneyland Paris?

According to information available from the French government, as of the issue date of this page, a Health Pass must be presented in digital or paper form, to verify one of three things:

That a guest is fully vaccinated (with an EMA-approved vaccine):

- 7 days after the second shot for two-shot vaccines (Pfizer, Moderna, AstraZeneca);
- Four weeks after the shot for one-shot vaccines (Johnson & Johnson);
- 7 days after the shot for vaccines administered to people who have already had COVID-19 (only one dose is necessary).

OR that a guest has been tested (PCR or Antigen) and has a negative result within the last **72 hours**;

OR for persons who have had COVID-19: the result of a positive RT-PCR or Antigen test, attesting that the individual has been infected, and that a period of time of at least 11 days and less than 6 months has passed since the test result was obtained (considered as a recovery certificate).

Guests can present any form of Health Pass in paper or digital format, that includes a QR Code - including the EU digital COVID-19 certificate, or equivalent for non-European Union countries, which fulfills the criteria outlined above.

For more information on the Health Pass, including the latest updates, we invite you to visit the [French government website](#).

Guests are being asked to carry with them valid proof of identity should there be spot checks by the police to verify the name on their Health Pass.

What are the accepted vaccination requirements to validate the Health Pass?

As of July 15, a person is considered vaccinated if they have a complete vaccination schedule and the necessary time after final injection, that is:

- 7 days after the 2nd injection for double injection vaccines (Pfizer, Moderna, AstraZeneca);
- 4 weeks after injection for single-injection vaccines (Janssen Johnson & Johnson);
- 7 days after injection for vaccines in people who have already had COVID-19 (single injection)

For more information on the health pass including the latest updates, we invite you to visit the [French government website](#)

When is the vaccination process considered as complete for the Health Pass?

As of July 15 and according to information available on the [French government website](#), a person is considered vaccinated if they have a complete vaccination schedule and the necessary time after final injection:

- 7 days after the 2nd injection for double injection vaccines (Pfizer, Moderna, AstraZeneca);

- 4 weeks after injection for single-injection vaccines (Janssen Johnson & Johnson);
- 7 days after injection for vaccines in people with a history of Covid (single injection)

We continue to follow government guidance and monitor authorities' recommendations and will keep guests updated on any changes as soon as possible.

[UPDATED] Who needs a Health Pass to visit Disneyland Paris?

According to information available from the French government, all adults aged 18 and older will need to show a Health Pass in order to visit Disneyland Paris.

This requirement will also apply to guests aged 12 to 17 starting September 30. Children under the age of 12 are not affected by this measure.

[UPDATED] How do I get into Disneyland Paris if I have not been vaccinated?

If you have not completed an entire vaccination schedule, you can access Disneyland Paris upon presentation of one of the following two requirements:

- Negative RT-PCR or Antigen test, taken within the last **72 hours**;
- OR for persons who have had COVID-19: the result of a positive RT-PCR or Antigen test, attesting that the individual has been infected, and that a period of time of at least 11 days and less than 6 months has passed since the test result was obtained (considered as a recovery certificate).

Guests are being asked to carry with them valid proof of identity should there be spot checks by the police to verify the name on their Health Pass.

You will need to present a valid ID with your Health Pass.

A testing centre is available in Disney Village and operates daily, from 8am to 8pm.

The testing centre is equipped and managed by an independent provider, Loxamed, which is registered by the French Health authority, and which operates the site autonomously. Costs are defined by the independent provider, Loxamed (all costs indicated are per test and per person):

With the implementation of the Health Pass, strong attendance is expected. **To limit wait time**, it is strongly recommended to book an appointment before going to the Centre at

<https://disney.loxamed.fr/>.

It is possible to book an appointment for both antigen and RT-PCR testing.

PCR Tests (24-hour results):

- Persons with a valid French social security number: 20€ (administrative cost)
- Persons without a valid French social security number: 63.89€ (administrative cost + 43.89€)

Antigen tests (with results usually delivered in 15 minutes):

- Persons with a valid French social security number: 20€ (administrative cost)
- Persons without a valid French social security number: 45.01€ (administrative cost + 25.01€)

How do I get a PCR test during your visit to Disneyland Paris?

You can choose to schedule an appointment at the testing center open in Disney Village. The site will operate daily from 8AM-8PM from Monday through Sunday.

The PCR testing service will be equipped and managed by an independent third party, Loxamed, registered by the French Health authority which will oversee the logistics and operate the site autonomously. Disneyland Paris will provide the location necessary to carry out the operation.

This service is intended to help assist guests visiting Disneyland Paris this summer from outside of France fulfill travel requirements specific to their home country. Operations are subject to change as the situation evolves. For more information and to book an appointment, visit: <https://disney.loxamed.fr/>

Who can get a PCR test at the testing center in Disney Village?

The testing center is open to any guest who wishes to make an appointment. This service is intended to help assist guests visiting Disneyland Paris this summer fulfill travel requirements specific to their home country. It is equipped and managed by an independent third party, Loxamed, registered by the French Health authority which operates the site autonomously.

How much does it cost to get a PCR test?

There is an administrative cost for the testing service. Prices are determined by the independent third party, Loxamed, which operates the site autonomously. As per the French health authorities' conditions, as of July 7, Non-French guests will be required to pay for the test, in addition to the administrative costs. For more information, please visit: <https://disney.loxamed.fr/>

What languages are spoken at the testing center?

The testing center can provide services in both French and English. For more information, please visit: <https://disney.loxamed.fr/>

[UPDATED] How many days does a negative PCR test last? Will I need to be tested multiple times if I am staying more than 3 nights at the resort?

Per French government rules, a negative PCR or AntigenIC test is valid for **72 hours**.

If your stay extends beyond this **72-hour** validity period and in order to comply with French government requirements, you will need to take another test, or multiple further tests, to have a valid Health Pass for the whole duration of your stay.

A testing centre for both PCR and Antigen tests is available in the Disney Village and operates daily, from 8am to 8pm. The testing centre is equipped and managed by an independent provider, Loxamed, which is registered by the French Health authority, and which operates the testing site autonomously

With the implementation of the Health Pass, strong attendance is expected. **To limit wait time**, it is strongly recommended to book an appointment before going to the Centre at

<https://disney.loxamed.fr/>.

It is possible to book an appointment for both antigen and RT-PCR testing.

[UPDATE] Where will the health pass controls be done at Disneyland Paris? Do I need a health pass to enter Disney Village or the Hotels?

To comply with authorities' requirements, a health pass is required to enter **Disney Parks, Disney Hotels and Disney Village**. For Hotel guests, we recommend keeping your Health Pass with you at all times as you will need to present it when visiting Disney Village and Disney Parks. We continue to follow government guidance and monitor authorities' recommendations and will keep guests updated on any changes.

What if you don't have a QR code, will paper certificates be accepted?

Guests can present any form of health passes in paper or digital format, **that includes a QR Code** - including the EU digital COVID certificate or equivalent for non-European Union countries - which fulfills

the criteria outlined above. For more information on the health pass including the latest updates, we invite you to visit the [French government website](#).

Guests are being asked to carry with them valid proof of identity should there be spot checks by the police to verify the name on their Health Pass before arrival for Dated Tickets.
