

The frequency of City Line may differ from advertised because it is subject to delays due to accidents, traffic jams, breakdowns, events of different nature, route diversions imposed by municipal authorities or public and private road works. The City Line app will show actual and real-time delays. Be able to see the real-time bus location. A frequency of 10-15 min. from 08:00 to 19:00. In winter, the frequency may be 15-20 min. in winter. In summer, the frequency may be 10-15 min. in summer. For more information, visit the website: [www.cityline.pt](http://www.cityline.pt)
